

# TALIA DIAMOND EARRINGS

[jacobandco.com](http://jacobandco.com)

Historically meaning “rain from the heavens” Jacob & Co.’s Talia earrings are composed of droplet-like designs, cascading with white diamonds and precious stones.

The earrings are lightweight like the gentle touch of rain, and move along with the wearer to create an ethereal effect as they fall delicately from the ear.

The Talia earrings are available in an exquisite array of emerald, ruby, white diamond, and sapphire options.
