

GHOST

jacobandco.com

Powered by a Swiss-made precision digital movement, the Ghost collection forges horological craftsmanship and digital age technology. The 47mm pentagonal black PVD stainless steel Ghost watch simultaneously presents the time in 20 selected cities via an on-demand activated LCD screen.

Customizable to display the time in a spectrum of colors, the Ghost takes a spectacular approach to cosmopolitan horology with a daring use of electronics that redefines the boundaries of watchmaking.
